## FFP3 Filtering Half Mask

**SCOTT**  
D I R E C T

**Front**

**Back**

### Features and benefits:

- Filtering face-piece respirator
- Filters solid and liquid aerosols
- Single-use
- Adjustable nose piece
- Buckle adjustment
- Facial foam
- Exhalation valve

### Advantages

- Polypropylene outer layer provides smooth lining and avoids loose fibres
- Embossed fringe seal avoids fluffy open layer around the edges
- Contour design ensures the compatibility of spectacles/goggles and reduces fogging
- Adjustable nose piece ensures custom shape and increases worker comfort and acceptance
- Improved contour fit with adjustable buckles. Easy breathing/speaking. Clear vision. Maintenance free (disposable item)
- The ISO 9001/ISO 14001 certified production guarantees the reliability and regularity of the production and the control of the environmental impact

### EN standards

CE 687723

EN 149:2001 + A1:2009 - certificate available on request

### Packing information

200 per case:

(5 boxes of 40. Each box contains 8 x 5 piece packs)

### Order process

- Minimum order 200
- Orders cannot be cancelled
